

Main Applications

Steel industry in the process of pellet, mineral beneficiation, hazardous waste treatment, water treatment, soil stabilization sugar refining, storage of fruits and vegetables, tannery, construction industry and neutralization acid.

Information Chemistry, Physics and Packaging

Chemical Characteristics		Reference	Specification
Calcium hydroxide	Ca(OH)_2	TEX 600-J	90% min
Free Water	H_2O	TEX 600-J	1.5% max!
Calcium oxide	CaO	TEX 600-J	1.5% max!

Physical Characteristics		Range	Specification
Grit	No. 100	Tyler	97.0% Pasa min

Presentation

Bulk and Paper bags 25 kg
